Progress report on the church elevator lift:

This past week the platform, mechanical workings, and interior doors were installed in the elevator shaft at church.

The outside door will be next and then the sidewalk concrete will be laid.

The final step will be to have it inspected.

We have a ways to go, but it is progressing.

Thank you to those who have done so much hands-on labor and those who have contributed so much financially.

Have a blessed Friday in Christ,
Pastor Julie
